

**Action Zone:
Mindful Finance Walk –
Creating responsible and sustainable leadership**

Wednesday, November 14th, 2018

Time: 10:45-12:15

Meeting-Point: Main Entrance Flora/ Registration

Description

Mindful Finance means bringing awareness and wisdom into financial decision making. By applying the mindfulness concept in leadership, business and work in the financial sector.

The Mindful Finance approach is able to contribute to a paradigm shift in the finance industry. Equipping leaders and frontline actors with mindfulness and awareness capacities will enhance the ability to notice business risks and opportunities, and create an open, innovative and sustainable financial business culture. In this sense Mindful Finance charts a path for individuals and organizations that wish to engage in discovering, and conscientiously building, the finance sector of the future.
