The IJMS (Iranian Journal of Management Studies) is a peer-reviewed open access journal published by the University of Tehran, Iran since the year 2007. The journal publishes scientific papers reporting original research and/or applications in the field of Management Sciences.

Given our increasingly globalized world, this special issue examines the topics of sustainability and responsibility from an international perspective. Together, we are able to develop future-oriented solutions, taking the sustainability debate beyond moralizing and promoting a holistic approach towards shaping our institutions. We bring together different perspectives on global issues from various countries, actors and generations on responsible leadership, to foster ideas, practices, which can be applied in a global context. Research and development in these areas is growing rapidly due to the many successful applications of these approaches in very diverse problems. Many research papers and scientific conferences have been devoted to this direction. Following that, the objective of this special issue of IJMS is to present recent and considerable advances on the following (but not limited to) issues:

- Sustainable Business Transformation
- Responsible Leadership
- Social Innovation
- Systemic Thinking
- Trust & Responsibility
- Positive Impact
- Change Management
- Governance

- Innovation in Leadership Education & Training
- Entrepreneurship & Intrapreneurship
- Creativity & Design
- Innovation Management
- Digitalization & Technology
- Social Engineering
- Clean Water, Air and Land
- Business Model Innovation
- Responsible Research & Publishing

Manuscript Preparation and Submission

All Manuscripts submitting in the SI should conform to the standard editorial and publication policies as mentioned in the journal. The authors should submit the manuscript via online system at <https://ijms.ut.ac.ir/>. Please select the article type “SI: CASM-2018” when submitting the manuscript.

Important Dates

- **September 30, 2019:** Paper submission
- **November 15, 2019:** First Notification
- **January 15, 2020:** Revised Manuscript
- **March 1, 2020:** Notification of Acceptance
- **April 30, 2020:** Anticipated publication

Remarks for Prospective Authors:

- Early submission is strongly recommended due to the fact that the review process will start as soon as we receive the paper. The online format of any accepted paper will be provided sooner than it's print.
- Manuscripts submitted to the SI should not have been already published nor be currently under consideration for publication elsewhere.

Reviewing

Manuscripts submitted to the SI will be peer-reviewed and will necessarily need to show quality by following ways:

- *For research topics:* originality of topic and developed mathematical models, quality of results, considerable contributions to the ancillary field.
- *For application topics:* initiatives, novel and untouched applications, managerial implications, environmental and social impacts.
